Safescan®

2985-SX
BANKNOTE COUNTER
ADVANCED DUAL POCKET COUNTER AND SORTER

The Safescan 2985-SX is your ultimate tool for easy and effective counting, validation and sorting of banknotes, offering professional-grade mixed-note counting and counterfeit detection. A large touch screen with quick menu, numeric keyboard and individual presets ensures fast operation. Featuring a dual-pocket design and CIS technology, it will value-count even the most advanced currencies, such as those printed on polymer, those that have transparent windows and those whose denominations have nearly identical dimensions. Designed for high-volume use, the 2985-SX is ideal for businesses that need fast, error-free counting for multiple currencies and proven 100% accurate banknote authentication.

- Counts sorted and unsorted banknotes
- Sorts, orients and faces banknotes in two pockets
- Adjustable counting speed
- 100% tested 7-point counterfeit detection
- Double CIS detection technology
- Supports banknote serial number scanning
- Automatic currency and denomination recognition
- Touch screen with quick menu and numeric keyboard
- Dual operator function with individual presets

- Batch counting and add function
- Value mix: counts banknotes in stacks of a preset value
- Counting modes: mix, value mix, sort, sort version, face, orient and sheet counting

Suspected counterfeit banknotes are placed in the reject pocket

SORTS, ORIENTS and FACES banknotes in two pockets

Large touch screen with quick menu and numeric keyboard
