

SAFESCAN 2250

BANKNOTE COUNTER

FAST, SIMPLE, SECURE COUNTING WITH 3-POINT DETECTION

Our Safescan 2250 combines quick counting of bank notes with 3-point counterfeit detection.

Suitable for all currencies, our Safescan 2250 counts 1.000 notes per minute and displays the results on the easy-to-read LCD screen. Plus, the Safescan 2250 simultaneously checks the UV, infrared and magnetic features on your notes to ensure their authenticity. An advanced checking and warning system sounds an alarm and stops the machine when a counterfeit note or different size banknote is detected.

- Counts up to 1.000 bills per minute
- With 3-point counterfeit detection
- With add and batch function
- With audio alert and automatic stop when a suspected banknote is detected
- 100% compliant with the new Europe series Euro banknotes
- Auto start and stop function
- For all currencies
- Large & Clear LCD display
