Height adjustable stand (min. 72, max. 98 cm)	optional	–
Weight net/packed (kg)	7.5/8.5	16/18.5
H x W x D operational (cm)	36 x 27 x 37	36 x 54 x 37
H x W x D packed (cm)	31 x 44 x 44	62 x 44 x 54
Stand net/packed (kg)	11/13	–

### NAGEL RINAK on adjustable stand.

#### Easy handling.

■ Within seconds the feed table can be changed over from flat to saddle stapling. The variable paper stop ensures that the staples are spaced correctly (which is especially important when loop staples are used) and positioned precisely. The staple magazine can be opened at the front for an easy reloading of staples.

#### Versatile use.

- Saddle stapling up to DIN A4 booklet size and 30 sheets (equals 120 pages)
- Flat stapling up to 40 sheets
- Loop stapling without changeover (distance between staple loops exactly 80 mm for brochures that can be filed)
- Stapling power can be adjusted to thin and thick paper layers

## Tak 18.

■ With its powerful electric motor and foot switch, the electric pad stapler Tak is designed specially for thick pads. Pads of up to 14 mm (140 sheets) can be stapled easily and precisely. The robust stapling head ensures a fast and reliable stapling of sophisticated material. The back stop is infinitely variable and permits a fast and flexible format change.

### NAGEL TAK 18.

Number of stapling heads	1
Pads up to approx.	140 sheets (80 gsm)
Staple length (mm)	6 – 18
Staple type	50
Throat depth (mm)	30

NAGEL staples.

## Enak.

■ The Enak 50-200 is especially suitable for manual pad stapling of smaller volumes. Its high-quality workmanship makes the stapler a reliable and durable tool. The Enak is designed for heavy duty and can staple pads of up to 17 mm (170 sheets). Different materials like paper, cardboard, leather, textiles and synthetic materials can be processed without any problems.

Number of stapling heads	1
Pads up to approx.	170 sheets (80 gsm)
Staple length (mm)	6 – 20
Staple type	50
