4 Drawers Filing Cabinet 2Hours Fire Proof

2-Hour rating series, for special requirement and important paper document

Mechanical cylinder combination Lock – durable, reliable and security

Mechanical design - each drawer can withstand 50KG weight independently

Size : H 1598 x W 551 x D 824 mm

Inner Size : H 294 x W 388 x D 636 mm

Net Weight : 418KGS

PRODUCTS TEST

Test Standard : JIS S 1037-2006

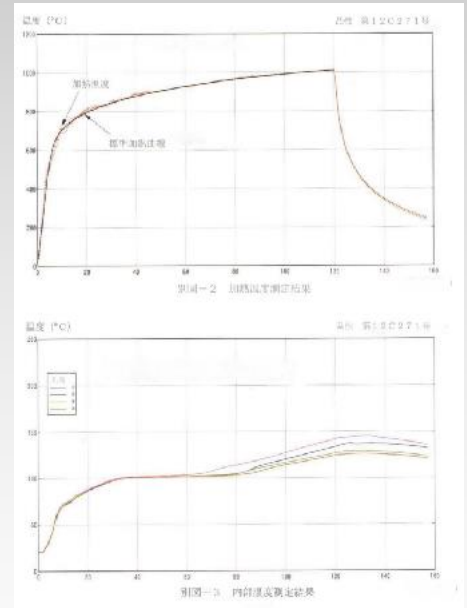

Test Institution : JIS

Test Date : 10TH, SEP, 2013

File No.: 12C271

Standard Requirement : The duration of the fire resistant test in 2 hours. The purpose of this test is to ensure that the internal temperature of cabinet remains below 177°C (or 350°F) while exposing to 1010°C (or 1850°F) inside the furnace.

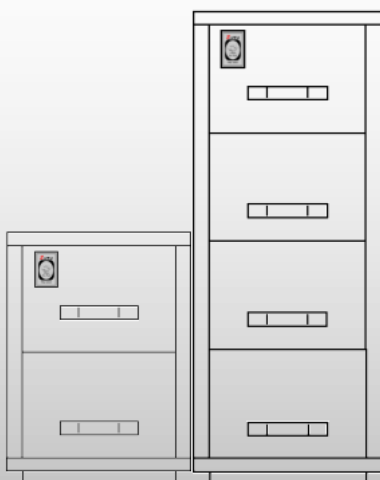

Text Results : Our SenWai 4 drawer fire resistant filing cabinet 2 hours JIS is tested to the prestigious JIS S 1037-2006 for 2 hours fireproof resistant test. During the test, the highest recorded temperature in cabinet is 142.3°C (or 288°F) while highest temperature in the furnace is 1010°C (or 1850°F).

DATA PROTECTION

Measurement of magnetic induction intensity inside the fireproof and antimagnetic cabinet: test conditions and requirements: apply a magnetic field of 7000gs magnetic induction intensity on the external surface of the fireproof and antimagnetic cabinet, and the magnetic induction intensity inside the fireproof and antimagnetic cabinet will not be greater than 4gs.

- 1: Aiming at the phenomenon of data demagnetization caused by the external magnetic field is too large, the heat source is too strong or there is a strong source
- 2: It can effectively shield magnetic field and heat source
- 3: So as to make the storage of audio tape, tape, video tape and disk more secure and reliable.
